SUMMARY OF COLLECTION: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue official State and national estimates of crop and livestock production, disposition and prices, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. NASS will conduct a survey of operations with field crops, fruits, nuts, berries, vegetables and horticulture commodities.

Selected operators in California will be asked to provide data on irrigation water source, irrigation water management, as well as irrigation method (acres and irrigation source) for crops.

General authority for these data collection activities is granted under U.S.C. Title 7, Section 2204. This survey will be conducted on a full cost recovery basis with the California Department of Water Resources (DWR) providing funding under a cooperative agreement.

NEED AND USE OF THE INFORMATION: The California Department of Water Resources' (DWR) website (<https://water.ca.gov/>) mentions DWR manages California's water resources, systems, and infrastructure. The information collected from this and previous surveys (1991, 2001, 2010, and 2017) will be widely used to meet the responsibilities of DRW, plan for future energy needs, and to help water districts with long-term planning.
